The following action is in response to the amendment received December 14, 2005.

Allowable Subject Matter

Claims 1-21 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a one-way clutch as defined in claim 1, wherein the shell-type annular outer ring is a thin plate having a substantially uniform thickness and wherein the annular retainer comprises an axially projecting portion projected from the outer ring in an axial direction, and a projection projected from the axially projected portion in a radial direction is fitted to the recess portion of the outer ring fitting member.

The art of record also fails to show or teach the one-way clutch as defined in claim 10, wherein the outer ring is a thin plate having a substantially uniform thickness and wherein the annular retainer comprises a projected portion projecting axially out of the outer ring and a projection engaging the recess of the housing.

The art also fails to show or render obvious a one-way clutch as defined in claim 16, wherein the outer ring is a thin plate having a substantially uniform thickness and wherein the annular retainer includes a projected portion projecting axially out of the

outer ring and a projection comprising an axially and radially extending surface that abuts the axially and radially extending surface of the recess of the housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicants' arguments set forth on pages 10-17 of the response filed December 14, 2005 are persuasive. Accordingly, the rejection of claims 1-21 under 35 USC 103(a) is withdrawn and the claims are allowed for the reasons set forth above.

The rejection of claims 6 and 7 under 35 USC 112, second paragraph, set forth in the previous Office action, is overcome by applicants' amendment of December 14, 2005. Accordingly, the rejection under 35 USC 112, second paragraph, is withdrawn.
